EXPERIENCE

Spring Intern

Fidelity Investments

- Developed a REST API using Golang which automates the rerun of failed jobs. It saves a considerable amount of time for the ops team from the manual task

Jan 2022 – June 2022

Chennai, India

Summer Intern

Fidelity Investments

- Developed a REST API using Golang and Echo Framework to automate the "change freeze" activity
- Migrated an automation workflow from HPOO to AWX/Ansible

May 2021 – June 2021

Chennai, India

PROJECTS

The Bridge | *Flutter, Ghost CMS, Firebase*

- Developed an Android application for The Bridge, the official online magazine of PSG Tech, with features like - deep link, bookmarks, dark mode, and font resizing.

Annai Paint Brush | *React, EmailJS*

- Developed a web app using React for a Coimbatore based paint tools manufacturing company Annai Paint Brush and hosted it on the web using Firebase Hosting.
- www.annaipaintbrush.in

Discussion Forum | *React, Node.js, MongoDB*

- Developed a discussion forum using React as the frontend and NodeJS as the backend with MongoDB as the database. Users can post, like, and manage their discussions.

Extension for VSCode | *700+ installs*

- Developed a VSCode snippets extension for Node.js developers which helps to save time with the boilerplate snippets.
- [easy-node-snippets](#)

TECHNICAL SKILLS
